

BIJOY T S

COMPUTER SCIENCE & ENGINEER

PH: +919074133271

Mail id: bijoysathyan10@gmail.com

Career Objective

Seeking to apply strong coding skills and creative problem-solving abilities to contribute effectively to dynamic software development projects, driving innovation and delivering high-quality solutions.

Education

Bachelor of Technology in Computer Science and Engineering,
MEA Engineering College, Perinthalmanna

2019-2023

Higher Secondary
GVHSS Vellinezhi, palakkad

2017-2019

Skills

- Skilled in Linux operations and administration.
- App Development.
- Experienced in full-stack development with expertise in web technologies..
- Skilled in developing applications, scripting, and data analysis using Python.
- Experienced in Java programming, including application development, object-oriented design, and enterprise solutions.
- Knowledgeable in Hypertext Markup Language (HTML) for creating and structuring web pages and web applications.
- Proficient in Cascading Style Sheets (CSS) for styling and formatting HTML elements, ensuring a visually appealing and consistent user interface.
- Competent in C++ programming, including software development, system programming, and performance optimization, for building efficient and scalable applications.
- Effective communicator and team player.
- Continuous learner, staying updated with industry trends and best practices.
- Passionate about software development and committed to delivering high-quality solutions.
- Detail-oriented with a focus on writing clean, maintainable code.

Soft Skills

- Teamwork
- Adaptability
- Problem Solving
- Time Management
- Interpersonal skill
- Multitasking
- Quick Learning

Project

- A webpage have been developed to facilitate the allotment of invigilation duties during exam.
- Real-time detection of student attention in classroom by using YOLOv5 and CNN (published in IEEE)
- Project in which a React Native application designed to fetch and display COVID-19 statistics from an external API. It provides a simple user interface where users can register with a username and password, and upon successful registration, it displays the latest COVID-19 statistics
